

GRI Certified Training Program

Sustainability reporting support for all organizations

Take a Training Course

The Certified Training Program helps you develop your sustainability reporting know-how, so you can run a smooth and effective reporting process, producing the best possible GRI report. The courses cover a range of topics and are offered by selected training organizations in local languages. Through the courses, you will gain in-depth knowledge of the GRI Standards and the various steps involved in the reporting process.

GRI Certified Training Partners

We select and certify local training partners globally and our Certified Training Partners have the local knowledge to give you insights into the relevant sustainability issues in your region.

STANDARDS CERTIFIED TRAINING COURSE

This training course takes participants through the various steps of the reporting process. The course is intended for people who are either directly involved in the sustainability reporting process of their own company, or assisting other organizations with their sustainability reporting. The duration of the course is 16 hours (minimum). After successful completion of the course, participants receive a GRI certificate of attendance.

TRANSITION TO STANDARDS CERTIFIED TRAINING MODULE

The aim of the Transition to GRI Standards module is to help the users of GRI G4 Guidelines to make a smooth transition to GRI Standards. The course takes participants through the main changes between GRI G4 Guidelines and GRI Standards. Therefore, it is important for the participants of this module to have a good knowledge of how to use the G4 Guidelines. At the end of successfully attending this module you will understand the differences between GRI G4 Guidelines and the GRI Standards and will receive a GRI certificate of attendance.

Please visit the GRI website for more information about the Training Courses, or send us an email at trainingandcoaching@globalreporting.org
