

Transparency for Tomorrow:

Decoding the Sustainability Reporting Landscape

Master the sustainability reporting landscape and turn knowledge into action

Why this eLearning course matters

GRI, TCFD, ISSB, ESRS... Navigating the world of sustainability reporting standards and frameworks can feel overwhelming, but it doesn't have to be. This course provides the clarity and practical skills needed to understand the key players in the sustainability reporting landscape, determine which framework best fits your organization, and apply it with confidence.

What you will learn

- Name the key sustainability reporting instruments and describe their nature, similarities, and differences
- Explain the concept of materiality, including both single and double materiality
- Identify which reporting instruments are best suited to support your organization's reporting goals
- Demonstrate how the key sustainability reporting instruments can be used together with the GRI Standards

COURSE DETAILS

- **Duration:** 3 hours
- **Format:** Self-paced online learning
