

How to Collect and Report Material Information Under the ESRS

Navigate material ESRS information with confidence

Why this eLearning course matters

Collecting and reporting material information under the European standards can be complex, with numerous disclosure requirements and data points to manage. This course provides practical guidance on navigating this part of the reporting process with clarity and ease. While the CSRD and the ESRS may change under the Omnibus Package, you'll acquire the knowledge and skills to adapt quickly and confidently once the updates are finalized.

What you will learn

- Map out common data collection activities for sustainability reporting
- Identify ESRS requirements for reporting on material matters
- Define which disclosures and data points to report for each material matter, and what can be omitted

COURSE DETAILS

- **Duration:** 2 hours
- **Format:** Self-paced online learning
- **Language:** English
- **Prerequisites:** None
- **Certificate:** GRI Academy Certificate of Completion
- **Price:** €200

WHO IS THIS COURSE FOR?

- Beginners in sustainability reporting with the ESRS
- Professionals seeking to understand ESRS material information requirements
- Reporting practitioners preparing for their first ESRS cycle
- Anyone requiring clarity on CSRD requirements and implementation
