# GSSB electronic vote December 2025

1 During the in person meeting held on 11 December 2025, quorum was not reached so an electronic  
2 vote was requested to acquire approval for two items.  
3

## 4 Overview of proposed changes:

5 • One point – my point stating the need of work for improving online/digital presentation and  
6 usability of GRI Standards (not to overwhelm the users by the volume of the documents but to  
7 let them focus on material issues) seems not addressed in the Summary and the Work  
8 Program. If this is considered, I approve the notes.  
9 • Work Program: Would like to see innovative/thought leadership topics for standards prioritised  
10 over well known topics, as discussed in the December and November meetings.
