GRI Community Roundtables

An international community of practice for sustainability reporting in your local market

GRI provides the world's most widely used standards on sustainability reporting and disclosure, and works with a growing community of reporters in over 90 countries to develop activities that increase the value of sustainability reporting.

Connect

The community roundtables have been developed to enable reporters to produce better reports, which are more comparable and have information that is relevant for all stakeholders.

The series of events help you connect, co-create, and engage with your peers to think about the most current issues in sustainability reporting.

Collaborate

Come together to explore reporting in a trusted and open environment.

During the Roundtables, you will discuss how the GRI Sustainability Reporting Standards contribute to internal value creation and external transparency and accountability within your organization, with both GRI and peers in your region.

1 — JOIN THE PEER-LEARNING NETWORK

- Exchange local best practices and receive feedback from peers to refine your approach
- Reflect with peers in your region on different sustainability reporting approaches

2 — ENHANCE YOUR SUSTAINABILITY REPORTING

- Increase your understanding of sustainability reporting principles and processes
- Explore the key areas that impact on sustainability reporting with GRI and peers from a variety of fields

3 — PROFILE YOUR ORGANIZATION

- Showcase that you are a GRI Community Roundtables participant to your local network
- Work with GRI to advance sustainability reporting practices for better reporting and decision-making

The GRI Community Roundtables:

- Explore the reporting principles, processes and topics of GRI Sustainability Reporting Standards
- Feature presentations from experts as well as moderated discussions on key challenges of sustainability reporting
- Enable peer-learning via group exercises and case studies
- Are context specific, reflecting the local sustainability market
- Go beyond the technical 'how-to' of reporting to ensure reporting is valued and used in decision-making

How does it work?

The GRI Community Roundtables
- Cover key sustainability reporting themes in half-day modules
- Take place simultaneously in different countries around the world.

Modules

MODULE 1 Sustainability Context	**MODULE 2** Materiality & Boundary	**MODULE 3** Stakeholder Inclusiveness	**MODULE 4** Supply Chain	**MODULE 5** Climate Change
MODULE 6 Management Approach Disclosures	**MODULE 7** Occupational Health & Safety	**MODULE 8** Waste	**MODULE 9** Governance	**MODULE 10** Water, Impacts, Risks & Reporting

Participation Requirements

To participate in this program, you must meet the following criteria:
- Be responsible for sustainability reporting within your organization
- Have completed at least two reports based on the GRI Standards OR have completed one report and participated in one of the GRI Certified Training Programs
- Management level or higher

Participation Fees

Non-GRI Community members	€500
