Climate reporting with GRI and IFRS Standards

Give your team the skills to apply climate reporting standards

Why this eLearning course matters

Climate reporting requirements are evolving rapidly across jurisdictions, with organizations facing increasing pressure to deliver comprehensive, credible disclosures. This course provides your team with practical knowledge of the climate-related GRI and IFRS Standards, enabling them to meet global expectations for climate transparency and support your organization's regulatory compliance.

What you will learn

- Describe the role and value of climate reporting, including its human and biodiversity dimensions
- Navigate key elements of climate reporting like GHG emissions, transition, and adaptation plans
- Explain how to use GRI 102 and IFRS S2 together to deliver comprehensive climate reporting

COURSE DETAILS

- **Duration:** 2 hours 30 minutes
- **Format:** Self-paced online learning
- **Language:** English
- **Prerequisites:** None
- **Certificate:** GRI Academy Certificate of Completion
- **Price:** €200
