

# Nature Reporting Fundamentals

Explore how your organization interacts with nature and start reporting with confidence

## Why this eLearning course matters

As nature loss and biodiversity decline become systemic risks to economic stability, organizations are expected to act. This course equips you with the key concepts and tools to understand, manage, and report your organization's interactions with nature.

## What you will learn

- Explain nature and biodiversity in sustainability reporting, and why biodiversity loss matters for organizations.
- Identify the main **drivers of biodiversity loss** and how global commitments are increasing expectations for transparency and action to address it.
- Explain how business **dependencies** and **impacts** on nature give rise to **risks** and **opportunities**.
- Describe key approaches for **managing impacts** on nature
- Explain how organizations **assess, disclose, and respond to nature-related issues**, including the complementary roles of the GRI Standards and the TNFD recommendations

### COURSE DETAILS

- **Duration:** 1 hour
- **Format:** Self-paced online learning
- **Language:** English
- **Prerequisites:** None
- **Certificate:** GRI Academy Certificate of Completion
- **Price:** €99
